THE Floral Parade

with its wealth of paper flowers sug-
gests something better for next year.
The rose beetle can be exterminated if
the lovers and growers of rose bushes,
as well as other plants upon which it
feeds, will use Arsenate of Lead. This
has been proven efficacious in every in-
stance and it does not harm the foliage.
If you want real flowers for the next
parade you must get rid of the beetles.

BENSON, SMITH & CO.,

LIMITED

1907 Suitings

We have a full line of 1907 sample
suitings open for your inspection now.
These cloths are the very best value
for the money and will appeal to the
thrifty man for that reason.

The stylish man can get the cut he
wants and a perfect fit. Also he can
be sure he is exclusive if he buys here
for not more than three suits of the
same cloth will be made.
Yours for the 1907 trade.

MANAGER WATT REPORTS KOHALA

ESTIMATES 1907 YIELD AT 2,400
TONS—CROP OF 1906 WAS 3,257
TONS.

The annual meeting of the Kohala
Sugar Company was held this morning
at 9 o'clock in the offices of Castle &
Cooke, the agents.

Manager George C. Watt's report
shows the crop of 1906 to have been
3,257,772 tons of sugar, averaging 2,418
tons to the acre. The total area cut
of plant cane was 682 acres and of rat-
toon cane 665 acres. The crop of 1907
to be cut from will be as follows: plant
cane 459 acres; first ratoons 251 acres;
second ratoons, 438 acres; a total of
1,148 acres.

Says the report:
Grinding of this crop began on Janu-
ary 21st the first cane to be ground be-
ing the second ratoons. The average
yield so far, has been about one ton of
sugar per acre. Nearly all of this
crop is from unirrigated land and 255
acres of the plant cane is at the mauka
end of the plantation, where the land is
very poor. I estimate the yield at 2,400
tons sugar.

The crop of 1905 consists of: plant
cane 490 acres, irrigated; plant cane,
274 acres, irrigated; ratoons, 193 acres,
irrigated; ratoons, 431 acres unirrig-
ated.

Almost the entire area of this crop
looks well and if nothing unforeseen
happens, I think that a return of 5000
tons of sugar may be expected.

The area to be planted for the crop
of 1907 will have to be between 900 and
1000 acres, owing to the fact that there
will be only about 360 acres of cane fit
to ratoon with this crop. It is rather
a large plant for a small plantation
like the Kohala Sugar Company and
means considerable expense, but I see
no other way out of the difficulty if
we are to keep the crops up to the
5000 ton mark and over. With labor
no worse than at present I think we
shall be able to accomplish it.

The Kohala Ditch Company have
seldom been able to supply the full
amount of water contracted for viz: 6,
750,000 gallons daily delivery. For the
period during which water has been
supplied by them, they have deliver-
ed a daily average supply of over four
million gallons. I feel confident that
irrigation will be a success in Kohala.
It will take at least three years to get
it so that all of the plantations below
the ditch will be in shape to go under
irrigation. Kohala is a hard place to
water for the reason that the fields
are not on an even slope and instead
of having one high point in a field, as
is the general case in Oahu, we find
that we have several to contend with,
which fact necessitates a considerable
amount of flume work. As more of
the land comes under irrigation six and
three quarter millions gallons will not
be a sufficient quantity for us. I think
that a daily delivery of ten million gal-
lons would supply all our wants, but
before more is contracted for, I should
like to see the Kohala Ditch Company
in condition to fulfill their present
contract in the driest weather. We
have built two reservoirs during the
year, one having a capacity of fifteen
million gallons and the other of eight
million gallons. These are both situat-
ed on the Bond land. I would deem it
advisable to construct a third, to be

HIGHTON'S LIBRARY SOLD

C. W. SPITZ OF KAUAI BUYS LOT
PER ORDER—LAW BOOKS FOR
ANOTHER—700 BOOKS.

The library of the late Judge Henry
E. Highton was sold at auction at Mor-
gan's rooms yesterday morning in one
lot, C. W. Spitz of Nawiliwili, Kauai,
getting the 600 or 700 books for \$150,
per order.

Mr. Spitz did not bid for the lot for
himself alone. The law books will
probably go elsewhere and he may re-
tain many of the works on history, reli-
gion, science, masonry, ethics and the
political and philosophical works. The
office furniture of the late attorney
will be sold Friday.

LAUKEA SAYS TAYLOR AND PARKER ARE O. K.

SHERIFF STATES THAT CAPTAIN
OF POLICE AND CHIEF OF DE-
TECTIVES ARE TRULY GREAT.

Sheriff Laukea as reported in The
Star yesterday, was hurt and surprised
because the Supervisors cut the police
appropriation \$80. Now he says:

"The Republican supervisors must
remember that for every cut they make
the official head of some Republican in
the department goes off. If this is
the way they are going to act towards
me in my capacity as sheriff of the
county I am going to strike back. Al-
ready the police force is so cut down
that if it were not for the active service
of Mr. Taylor, at the head of the spe-
cial force, and of Captain Parker, of the
uniformed men, the public safety would
be menaced. In having these men at
the heads of the two branches I am
fortunate and the public is to be con-
gratulated."

UNLUCKY THIRTEEN.

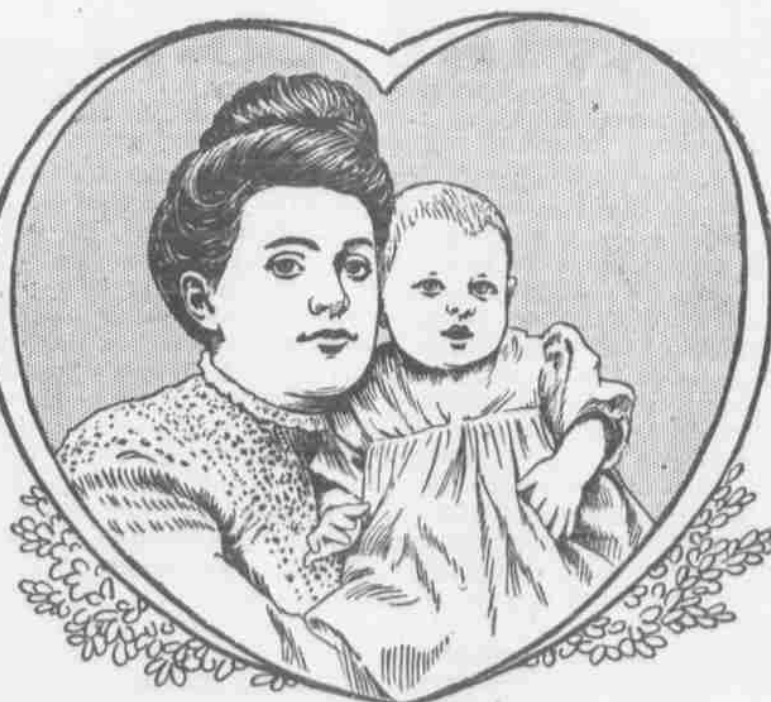

Detectives Taylor, Leal and Apana
secured 13 Chinese rammers from the
upper story of an old wind mill on
Magazine street last night.

situated in the Pu or Mohio Fields,
with a capacity of no less than thirty
million gallons, the same to be con-
structed during the coming year.

We have not the proper facilities for
hauling cane to the mill. The traction
engine and carts do fairly well in dry
weather but if the weather is wet,
everything comes to a standstill and is
likely to put the grinding out of sea-
son. The handling of a 5000 ton crop or
over would mean that either more stock
must be purchased and more wagons
built, or else a railway system installed,
or as a third alternative, the mill could
be moved to a lower elevation and all
the cane flumed.

It will be seen that the operating ex-
penses for the year just ended have
been greater than those of the year pre-
vious. The difference is caused solely
by increase in the fertilizing, irrigation
and hoeing accounts. The expected out-
come should warrant the extra ex-
pense.

MOTHERHOOD

MRS. DANIEL SULLIVAN

Unquestionably preparation for a
healthy maternity is accomplished by
Lydia E. Pinkham's Vegetable Com-
pound more successfully than by any
other medicine, because it gives tone
and strength to the entire feminine
organism and renders it perfectly
normal.

A woman in good physical condition
transmits to her children the bless-
ings of a good constitution. Read
what Lydia E. Pinkham's Vegetable
Compound did for Mrs. Sullivan, 589
E. 7th Street, Flatbush, N. Y.

"What a blessing Lydia E. Pinkham's
Vegetable Compound is to motherhood. I
send you a picture of my three months' old
baby and myself, and the photo shows the
splendid condition of our health. That I am
so well and the baby so healthy and happy
is entirely due to your excellent remedy
Lydia E. Pinkham's Vegetable Compound. I
took it for five months before baby came
and it brought me an easy confinement and
kept me strong, whereas I was weak and in
perfectly miserable health all the time when
my first three children were born."

Mrs. Geo. Walters of Woodlawn,
Ill., also writes:
"I feel it my duty to tell of the good Lydia
E. Pinkham's Vegetable Compound has
done me and to recommend it to all expec-

tant mothers to insure a healthy child and
easy birth. I had lost three children and
was discouraged when a friend advised me
to try Lydia E. Pinkham's Vegetable Com-
pound. I did so and it not only kept me
well and strong but I have as healthy a
child as you will find anywhere. I hope
other discouraged women may read
this letter and take Lydia E. Pinkham's
Vegetable Compound and be benefited by
it as I have been."

Women should remember that for more
than thirty years Lydia E. Pink-
ham's Vegetable Compound has been
without a rival in sustaining woman's
health and curing all those painful
ailments peculiar to her sex. Its re-
cord shows that it has cured almost
every form of female complaint, orga-
nic troubles, inflammation and ulcer-
ation, falling and displacements
and consequent spinal weakness,
and is peculiarly adapted to the
periods of child-birth and change of
life. It cures backache and all those
bearing down sensations.

If there is anything about your
case you do not understand write to
Mrs. Pinkham, Lynn, Mass., for
advice. It is absolutely free. Thou-
sands of women have done so and
have received help.

Lagering

Lagering or aging (storing for maturity has much to do with the
quality and healthfulness of beer. With our storing capacity of

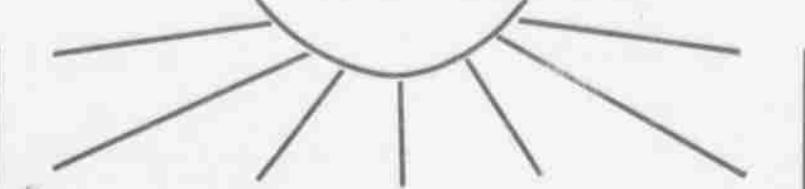

600,000 Barrels

exceeding that of any two other breweries in the World, we are en-
abled to lager our beer from four to five months before being mar-
keted. This lagering brings out, to the utmost, that exquisite taste
and fine flavor characteristic only of Anheuser-Busch Beer.

A Rainier Toast To the Japanese Fleet

They have come from far Yokohama,
From the shadows of high Fujiyama,
These men of the mighty Mikado,
Who conquer though scorned bravado.

Then here's to the Japanese tars,
The sons of old Neptune and Mars,
Fujiyama's forgotten,
And saki forsaker,
RAINIER lifts her head to the stars.

So we welcome them here
With a schooner of beer,
These jolly, brave Japanese tars.
